PM-1045 - Thermophilic Denitrification of Tobacco
Japanese Pat. Appln. 502906/82
Your ref: 25221

Dear John:

Last month, Beverly Monroe forwarded to me your March 29, 1990 letter enclosing an Official Action in the above-identified application. I have reviewed the action and enclosed a draft of remarks and supporting citations which may be useful in response to the Examiner's objections.

In response to your question, deposits PM-1 to PM-4 were not made under the Budapest Treaty. However, it should be noted that the conditions of deposit listed on the ATCC deposit receipts indicate that the cultures will be maintained for a period of 30 years from the deposit date -- as required by Rule 9 of the Regulations under the Treaty. Should you wish to discuss the draft in further detail, please call me at your convenience.

With best regards.

Very truly yours,

Margaret A. Pierri
